Robert,

Jayne appears to have a love-hate relationship with the number six. Not sure why it's "6216" and not "6217" or why she scheduled this meeting for the 6th and is now "reminding" us it's on the 5th.

At any rate, Oregon has 3 remaining conditions: Additional MMs for Forestry (which was the impetus for the lawsuit & settlement) and New Development and the OSDS Inspections element. For OSDS, Oregon is relying on a rules package that would require point-of-sale inspections, so that's a separate discussion. For the other 2 conditions, Oregon is relying on implementation-ready TMDLs. We approved this strategy a few years back, but rejected OR's previous implementation guidance as being too vague with regard to the New Dvpt MM. We are looking for guarantees of 80% TSS removal. Please read the attached document, and in particular what we say about New Dvpt on pp. A-3 - A-4. Then please look at the 2 documents linked below. Please comment on the adequacy of the draft implementation guidance for fulfilling the New Dvpt MM condition. If it's not adequate, please provide comments or edits on specific section(s) of the guidance that would allow it to fulfill this condition.

Thanks.

Don

Don,

How do I prep for this?

Do I need to be on this call?

Robert

Feds Only Meeting to Discuss OR CZARA 6216 Products
Oct 5 at 12:30 in DC/MD/VA or 9:30 WA/OR
Call In Number: Nonresponsive

As wisely recommended by Alison, I have set up a time for the feds to discuss ODEQ's following documents with respect to meeting CZARA conditions/requirements in order to make sure we are consistent when presenting our recommendations and comments to the State of Oregon. David Powers will not be able to join us at this meeting.

Draft TMDL Internal Management Directive. A link to the TMDL IMD:
<http://www.deq.state.or.us/wq/standards/docs/toxics/humanhealth/rulemaking/TMDLIMD.pdf>

TMDL Implementation Plan Development for Urban/Rural Residential Land Uses within CZMA Guidance. Note that this document is a draft and one of the areas Oregon DEQ is looking at improving is including a decision making framework to assist the users in the selection of management measures or management practices. Below is a link to a DEQ FTP site for accessing this document.

On October 6, we will be meeting with ODEQ to discuss our concerns and thoughts.

Cheers,
